DEDICATION

To the memory of my Uncle Engineer Dipo Akintonde, a voracious reader of Novels, He read everywhere and at every opportunity. He read even in the Toilet!

To the Visionary Leader, Chief Obafemi Awolowo, who spearheaded the creation of the University of Ife. It was his vision that the University will be an epicentre of Scientific Progress, Innovations and Excellence, a vision sadly neglected by subsequent generations of leaders.

XELOPLIUM

Acknowledgement

This is to say thank you to all my Teachers in the past and in the present.

DISCLAIMER

This work is a pure scientific fiction; any supposed reference to any group of people, businesses, organizations, and countries is for illustration only and to give the work a vivid sense of reality and authenticity.
